

Open 'Marsh' Night
Connecting & Learning Together
@ Muddy Paws Marsh

Wednesday, April 9, 2014

6:00-7:30 pm

(you don't have to be here the entire time)

Please plan on stopping by to learn about Muddy Paws Marsh and the importance that this wetlands plays in the Upper Penns Creek Watershed. At the program we will learn about:

- **Marsh 101:** Some tips and basics about Wetlands and why they are important lead by Penns Valley Conservation Educator, Jim Flannigan.
- **Meet the 'Herps':** (frogs...etc) that inhabit this wetlands with Penn State Herpetologist and Master Gardner Carla Haas.
 - After the brief presentations, we will discuss volunteer opportunities here at the free 2014 educational programs @Muddy Paws. (*)
 - Take a walk about the wetlands
 - HOPEFULLY—hear some Spring Peeper frogs! (at least some really wonderful birds.)
 - Finally, refreshments and goodies will be served. Yes, a pot of Cooke Tavern Soups will be one of the goodies!! ☺
